RESEARCHED & DEVELOPED BY:

## BENEFITS OF ATTENDING

What makes learning valuable? Simply put: it's what you do with it.

**We want to ensure you see direct value from the time you invest with your peers at the World Oil & Gas Corporate Security Forum. That's why it's not enough to simply offer 2 days worth of theoretical presentations.**

Whilst previously the tactical issues have been at the forefront of the agenda, after intensive research with over 50 Heads of Security in operating companies and the biggest solution providers worldwide, we have identified the need for a strategic focused meeting limited to senior corporate personnel.

The World Oil & Gas Corporate Security Forum is this meeting. Limited to HOS/VP/Director level attendees from Oil & Gas Operators and Service Companies, the aim is to allow you work together with your peers focussed on changing the mind set of your board and challenge the view of security.

## REASONS TO ATTEND

- 1** **Change the board level mind-set of security** from being a cost centre to cost saving centre by leveraging the experience of **BG Group**
- 2** Better **inform your corporate decision-making** by learning how **Afren** effectively communicate the business impact of risk.
- 3** **Improve your ability to assess threat trends** how these impact strategic security with insights from **Dana Petroleum**
- 4** Discover how to **accelerate the capabilities of your security functions** both locally and internationally in an interactive session led by **FMC Technologies**
- 5** Use the lessons learned from **Subsea 7** to **guarantee you have a security strategy that enables tactical delivery**, thinking and agility.
- 6** **Ensure success through community engagement programmes** with insight from **Wood Group**
- 7** **Develop strategies to manage inside threats** from your organisation with case studies from **Centrica**
- 8** **More effectively predict and mitigate risk to determine country entry and exit strategies** with insights from security leaders worldwide

## COMPANIES WHO HAVE ATTENDED OTHER EVENTS IN THE SECURITY SERIES:

## QUICK FIRE FIGURES

**60** CSO level strategic attendees

**8+** hours of invaluable networking

**30+** leading security organisations

\*Predicted figures based on attendance from previous year's events.

## WELCOME FROM THE CHAIRMAN

Dear Colleagues,

It is with great pleasure that I welcome you to the World Oil & Gas Corporate Security Forum.

This is a unique interactive leadership forum which will give you a rare chance to share, learn, debate, and challenge the assumptions we all make in setting our own security strategies. Key thought leaders in the field will direct you towards new and creative ways to protect your people, assets and reputation.

Over the last five years, Hanson Wade has established a pedigree in developing security forums which bring together key stakeholders from the security community to find a common solution to shared problems. Whilst we may each face our own individual security challenges, we all strive to operate in a safe and secure environment.

This is the only forum which provides as much time for peer-to-peer discussion and shared problem solving as it does for presentations and case studies. As a result, it will provide you with the opportunity to collaborate with the industry's leading Group Heads of Security focussing on how to build your high level strategy rather than reactive tactics, all under the "Chatham House" rule.

### I therefore offer two challenges:

Firstly to the speakers – please share with us new and challenging insights that will help us all to add real and immediate value to our operations. That will truly help to protect people, reputation and assets around the globe. Help us to establish a blueprint for a world class security strategy.

Secondly, to the delegates – enjoy the conference, come armed with questions for each of the sessions and be willing to share. This is your conference and we hope you can not only add value to the discussions through active participation but leave with a better understanding of how better to do business in complex environments.

I look forward to seeing you in London in October.

Sincerely,

**Martin Fuller**

Former Head of Security  
**ADNOC**

### HEAR WHAT PREVIOUS SECURITY ATTENDEES HAVE TO SAY:

“The de-facto reference point in the ...security calendar.”

**Maritime Security Review**

“Great senior security management attendance.”

**Afren**

■ All speakers were well qualified and engaging. ■

PGI

## POST CONFERENCE MASTERMIND SESSION

**Date: 30th October 2014 | Time: 09.00-15.30**

Mastermind sessions are facilitated opportunities to dig deeper into the subject with a smaller and more focused group than the main conference allows. These sessions are designed to ensure that attendees can develop a practical blueprint for implementation success.

They are highly interactive discussion based (rather than presentation based) sessions and participants should come expecting to share and discuss their own challenges, opinions and perspectives.

### **This mastermind will address:**

- Critical success factors for achieving a robust global strategy to strategic security
- Practical experiences of what's worked, what's not and what's needed to succeed
- How you can develop or update your own blueprint for developing your security strategy

### **You will leave able to:**

- Accelerate the development of your security strategy globally
- Understand common pitfalls and how to overcome common challenges to avoid repeating costly mistakes and ultimately protect your assets, people and reputation
- Adapt your strategy when you are back in the office to incorporate some of tips shared by others in this session

### **Mastermind Leader**

**Martin Fuller**

Former Head of Security  
**ADNOC**

Martin has held a number of high profile roles in the security sector including a period as head of security for Abu Dhabi National Oil Company on secondment from BP Middle East where he had worked for 15 years with responsibility for security, security risk management and business continuity management within BP's Middle East operations. Martin recently worked for G4S Africa as their Development Director for O&G for the whole of Africa; prior to that he was an independent risk consultant and the principle risk consultant for Olive Group in the UAE.

■■ Very interesting, two positive meetings set up. Very useful.  
It was pleasure to attend. ■■

**DS Tankers**

■■ At the Hanson Wade events we have attended we were impressed by the balance of speakers and subject: a number of difficult and delicate issues were addressed in a direct and open fashion. ■■

**LGS**

# NETWORKING AT

## WORLD OIL & GAS CORPORATE SECURITY FORUM

### SPEED NETWORKING

A structured networking session - run like speed dating - especially designed to facilitate quick introductions to the majority of attendees. Use the time wisely to meet new contacts, reconnect with old friends and identify those you want to spend more time with....

### ROUND TABLE DISCUSSIONS

Take part in facilitated discussion sessions focused around specific, high priority issues. Discuss your experiences and observations within focus groups then share your and the other groups' finding with the main conference.

### STRUCTURED NETWORKING BREAKS

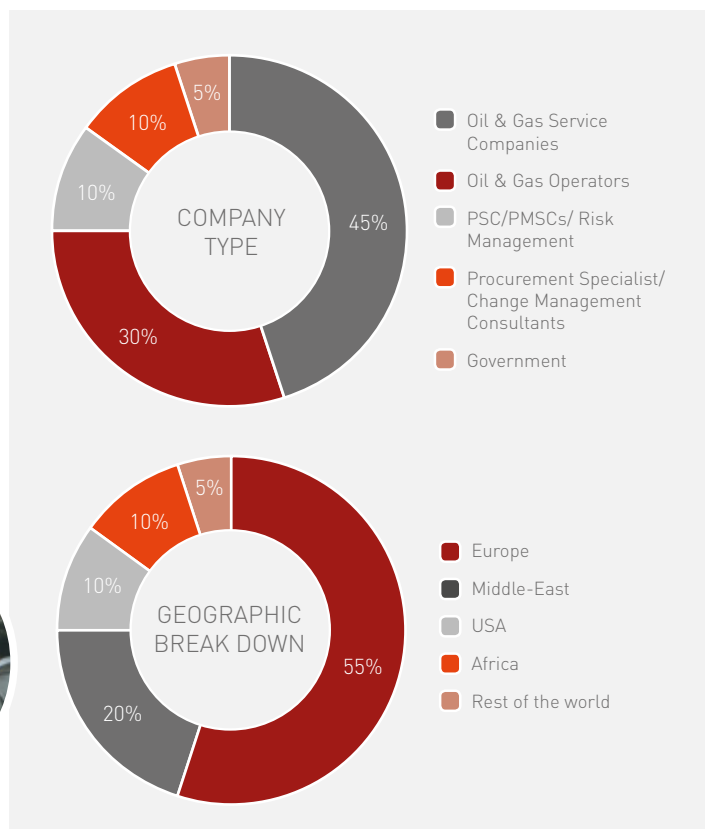

In between the formal presentations the networking carries on. Use the multiple refreshment and lunch breaks to continue your discussions in an informal relaxed atmosphere.

■ All speakers were outstanding. ■

Chevron

## YOU'LL MEET PEOPLE FROM...

## SPONSORS

### AGT International Conference Partner

AGT has since its launch in 2007 been a pioneer, making the world safer by leading the integration of devices and new information sources. In the last five years we have connected a greater variety of sensors than anyone else in our industry while successfully delivering some of the world's largest and most sophisticated public safety and security projects.

### Track24 Conference Partner

Track24 has led the Security Tracking and Location Management sector since 2004, using technology to help international organizations fulfil their Duty of Care obligations. Drawing on GPS, GPRS and satellite technologies, Track24 helps organizations with a dispersed workforce know where their people are and enhance their security and safety processes.

### PGSS Ltd Exhibitor

PGSS Ltd (Proficient Global Security Services) is a global offshore security services company providing consulting, training and security services in the form of Risk, Maritime & Aviation security, Defence Training & Equipment and Cyber.
